

# The Beech Bugle

## Where is home?

This term the children in Beech class have been learning about different types of homes and places in the world.

They first used the book **'Lost and Found'** to learn about Antarctica and

the homes of animals at the South Pole. They also investigated materials in order to build a boat to sail the penguin home. They then explored the Arctic Circle

and animals from around the North Pole using the book **'The Great Explorer'**.

They compared the weather and the features of these locations to here and decided where they would prefer to visit.

Next we thought about our own homes and how houses are built. The children were

challenged by 'Pippa Pig' a cousin of 'The Three Little Pigs' to build a strong and warm house to keep her safe from the wolf.

What is Janmashtami?

During RE lessons, the children have been learning about the Hindu celebration of the birth of Krishna. They found out about the story of his birth and how people today celebrate this event. The children enjoyed making Krishna crowns to wear.

## Bouncing and Balancing!

The children were very excited this term to be getting changed for their PE lessons in the hall.

They have been working hard to improve their balancing and movement skills.

## Frozen Art

Taking advantage of the cold weather, the children created beautiful pieces of art while exploring ice.
