

## Computing

We will be studying the journey inside a computer and will learn the basic elements of the machines that power our world. Then future child coders can put their knowledge and imaginations to work with fun activities.

## MFL – French

In French this term, the children will be learning about toys in the French language.

## RE

Our study this term will be on the Christian concept of holiness and on Holy Mary, Mother of God. The children will describe the concept of holiness. Children will show how Christians believe that Mary is Holy.

Class: Willow / Yr. 3/4  
Autumn term / 2024

## West Tytherley bitesize

What your children will be learning this term

### English

In English, our writing journey will be to write a newspaper. This will be inspired by 'The Lion, The Witch and The Wardrobe'. This takes readers on a magical journey through a wardrobe into the enchanting world of Narnia where four siblings must battle the evil witch and restore the rightful ruler to the throne.

Our next writing journey will be focussed on designing nonsense poems. This will be based on the 'Jabberwocky', which tells of a father who informs his son about a fierce creature called the Jabberwock. The son then sets out on a quest to slay the foul beast, and when he succeeds, his father celebrates.

### Maths

We will have opportunities to learn about addition and subtraction, multiplication, division, fractions, money, time and length.

These will be a mixture of learning the core methods to the four operations. Completing one- and two-step problems and physical activities will enhance understanding.

### Science

Our topic will be the digestive system. The children will identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they gain nutrition from what they eat. They will describe the simple functions of the basic parts of the digestive system in humans. Lastly, they will study different groups of teeth and their function.

### History/Geography

In Geography this term, we will be looking at trade within Asia. The children will locate where Asia is and what it is like. They will look at India especially and where it is within Asia. We will research what we produce in our local area and compare it to what is produced in India. We will be focussing on India's production of tea and see what we produce most of. We will also see who the UK trades with and where our traded goods go.

### Music

The children will listen and respond to what they hear with relevant questions and actions.

There will be opportunity to build confidence amongst their peers through speaking opportunities such as talking about likes and dislikes. The children will study and learn about pentatonic melodies and composition.

### Art/DT

This will be a DT focussed term where the children will be learning about foods of different seasons. They will taste different seasonal ingredients and learn how to cut and peel. Our final dish will be a vegetable puff pastry.

### PE

Tuesday PE will be delivered by Personal Best Education. Thursday's will be delivered by Inter8 Dance.

### PSHE (Scarf)

In PSHE, we will be discussing the children's relationships to different kinds of people and how to react to rules and other groups.
